## Report Generation Option Generates Blank Report with Only Back Option

I have already installed all the required IIS components and its features for COSEC Applications. The application is working fine but blank reports are generated for every module of COSEC, shows only 'Back' tab.

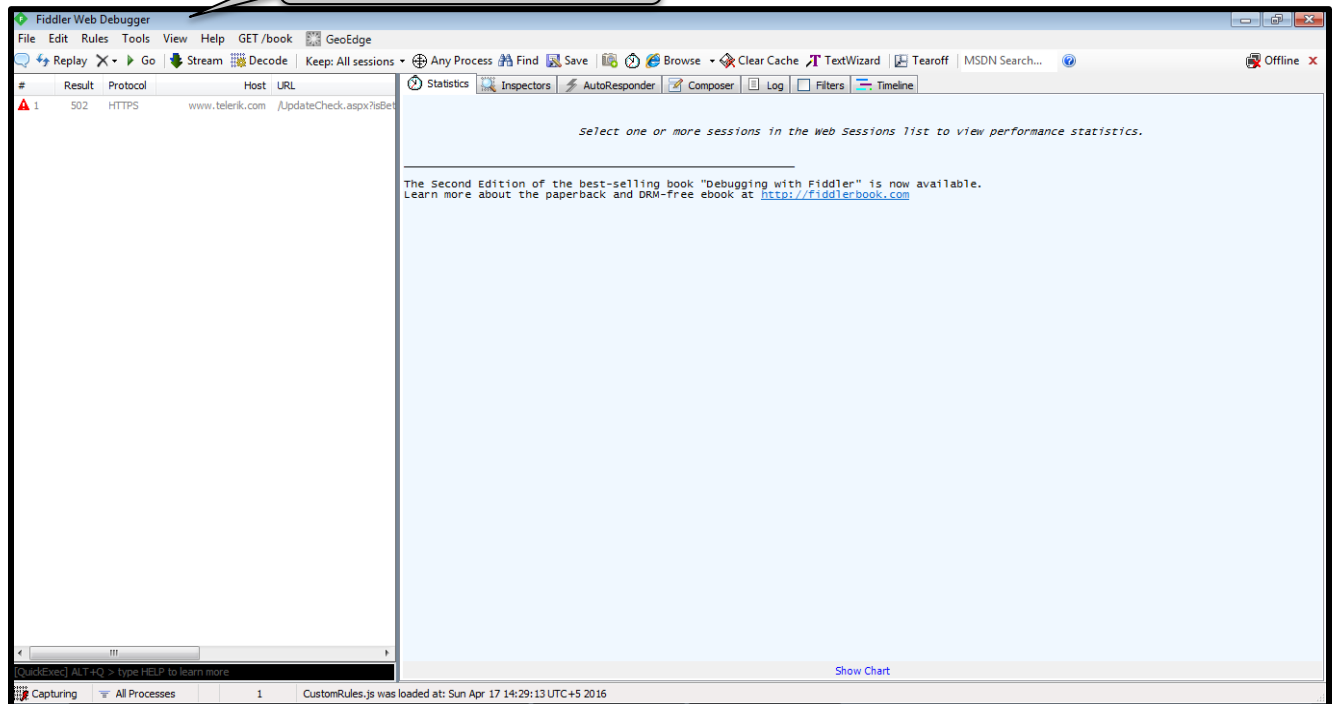

- This error comes because COSEC application could not find the proper resources of Microsoft.NET framework for SAP Crystal report installed at following location C:\inetpub\wwwroot\aspnet\_client\system\_web

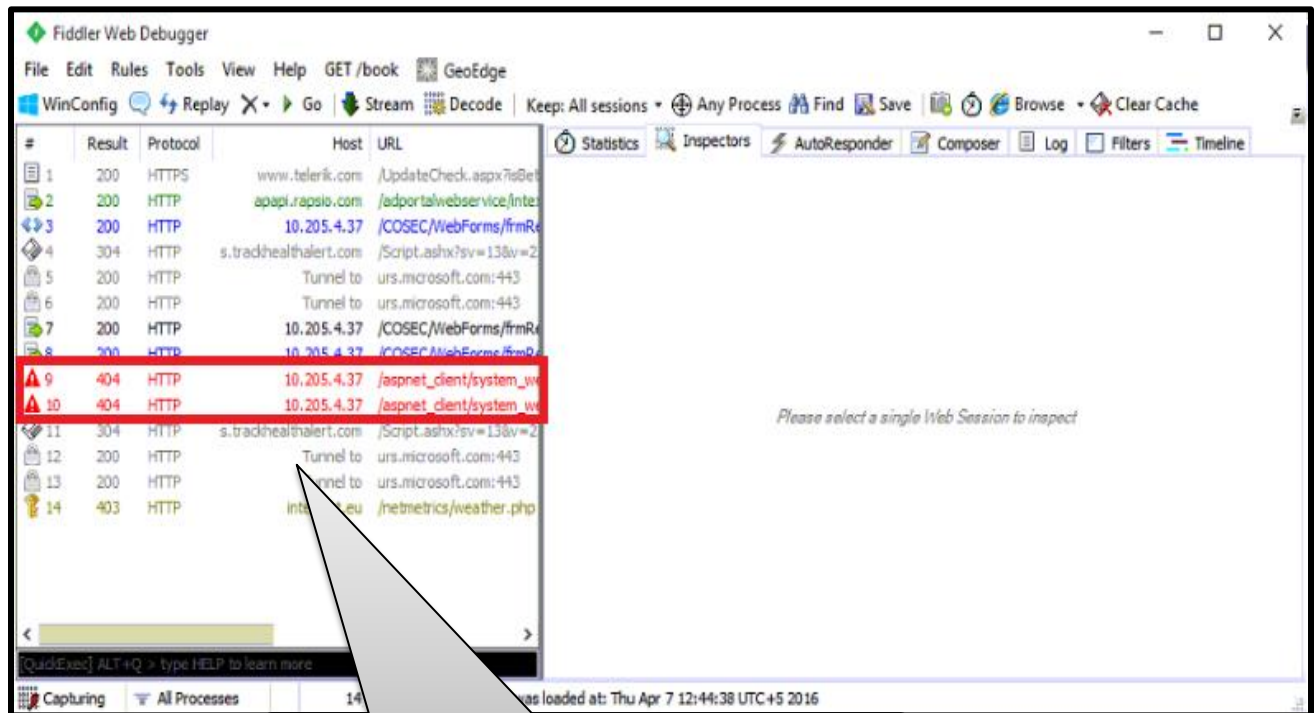

❖ Steps to be followed to overcome the error are as follows:-

- Provide the full access rights to 'Temp' folder located at 'C:\Windows\Temp'.
- Download the 'Fiddler Web debugger' from internet.

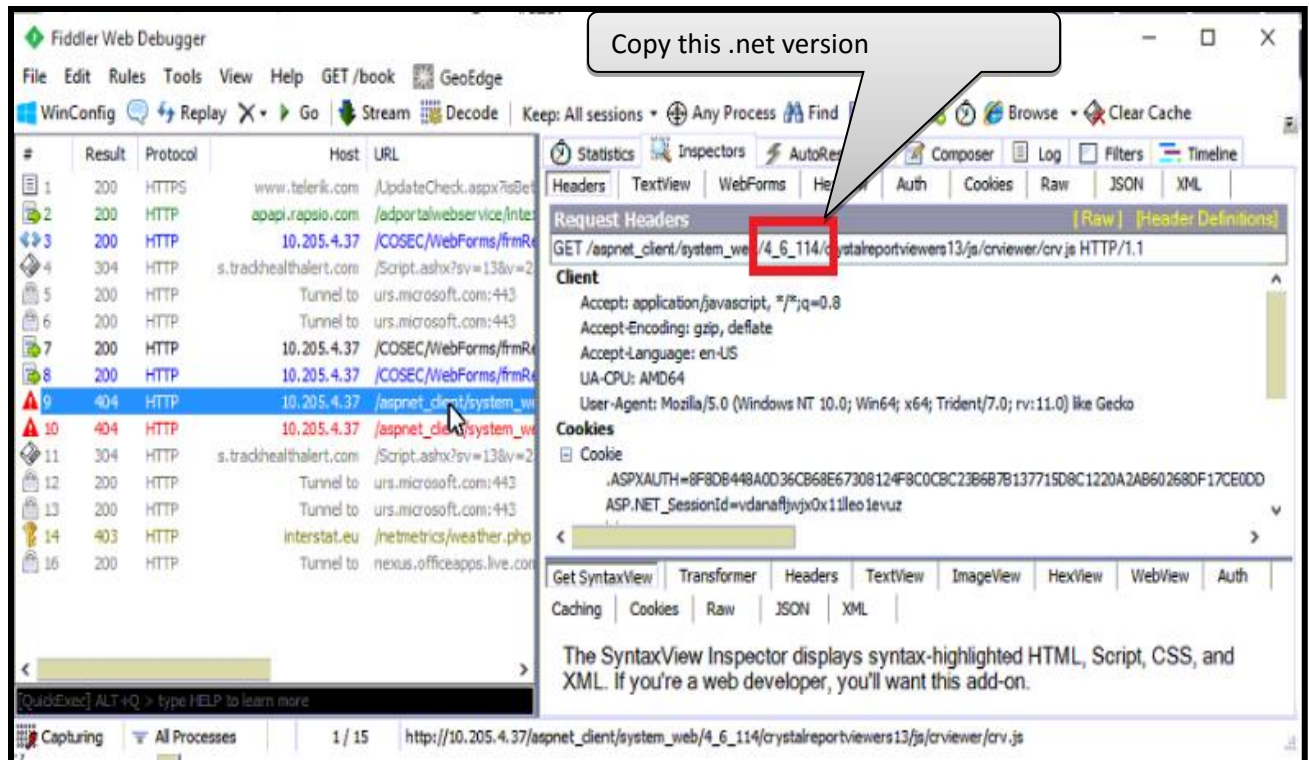

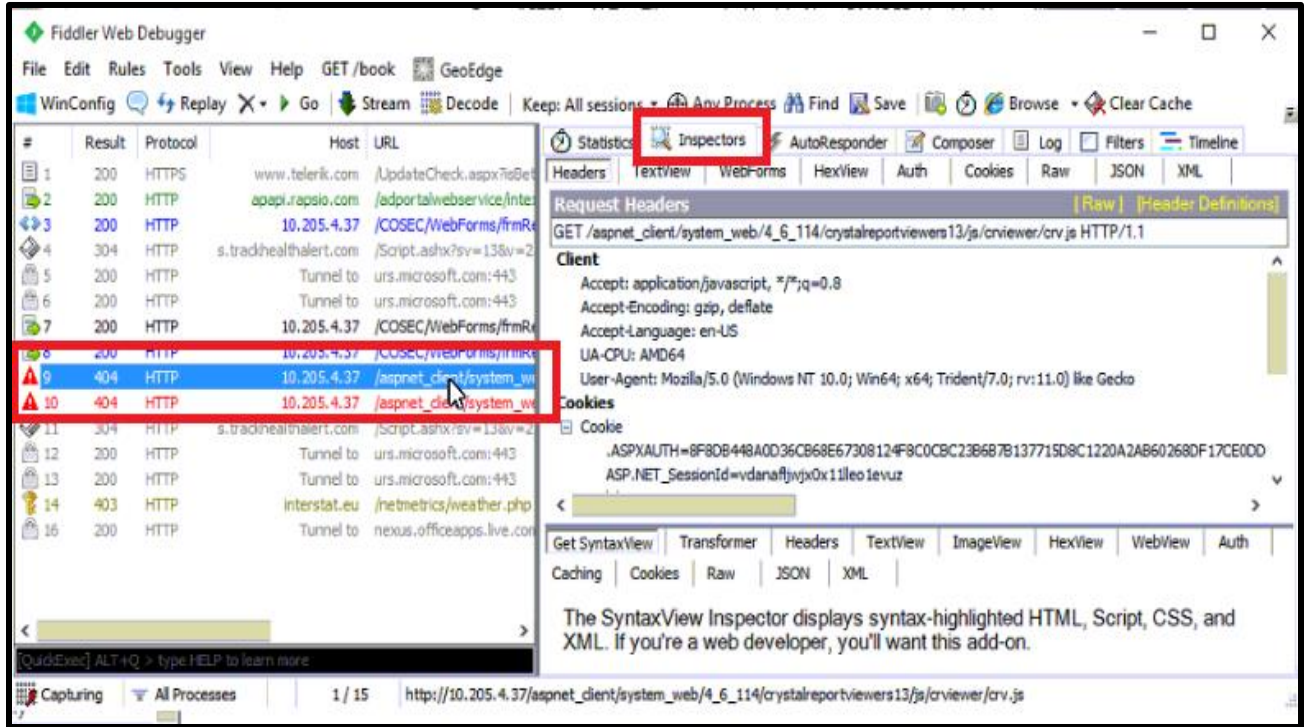

Open Fiddler web debugger

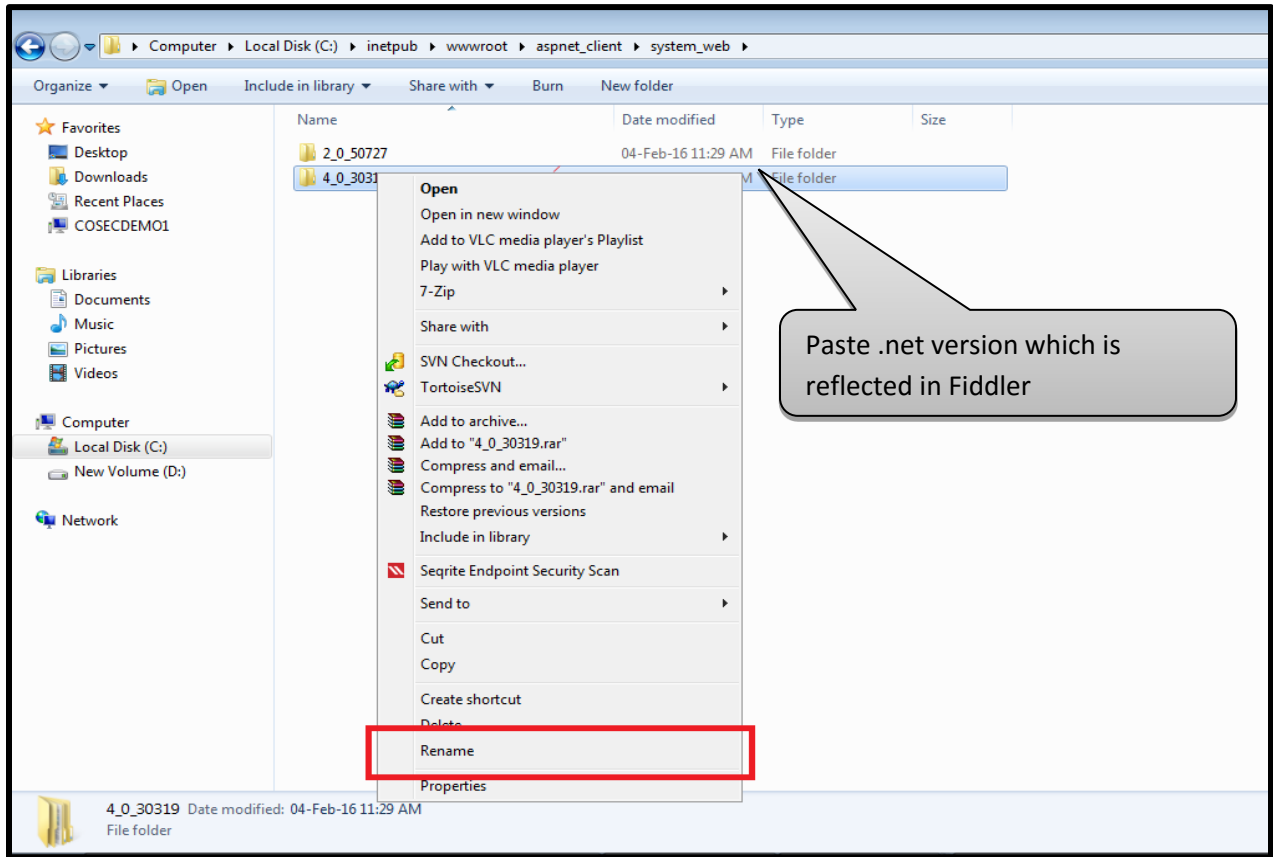

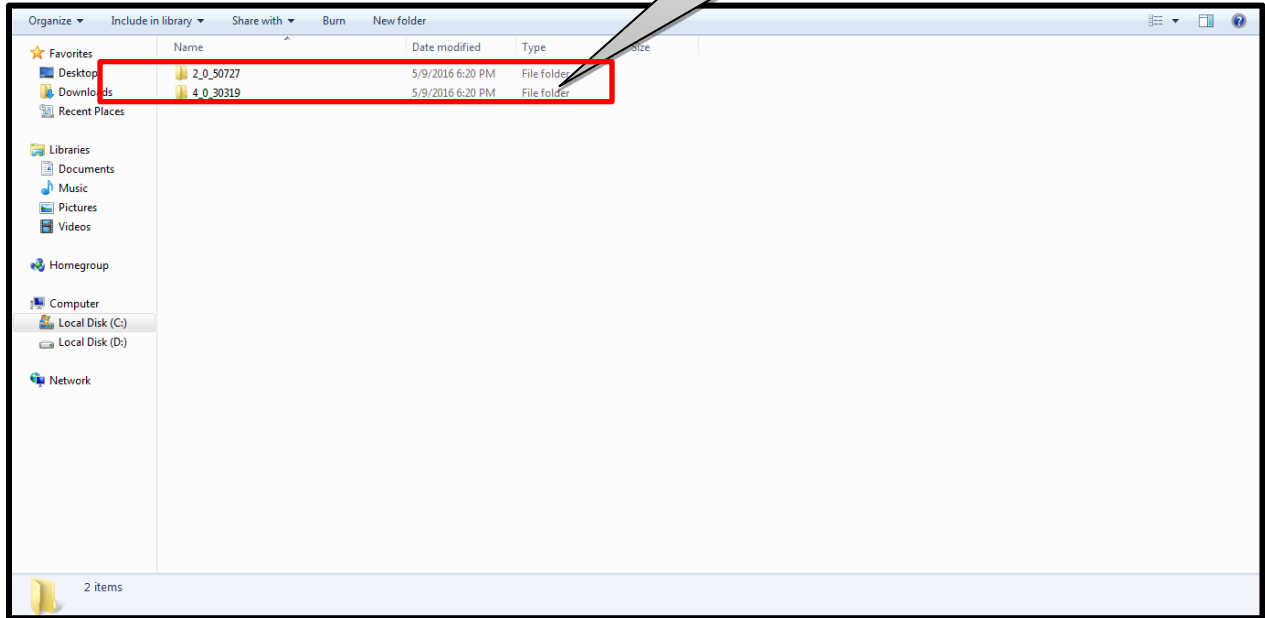

Now generate any report from COSEC application and go to Fiddler

Click on error appeared in red mark

Right Click on 4\_0\_30319

MATRIX GOS Right

Time and Attendance

Now generate any report in COSEC application, it's getting generated.
